## HEALD'S BUSINESS COLLEGE

24 Post Street, San Francisco.

The course of study in every department of Heald's Business College is as short, practical, thorough and useful as it is possible to make it.

---

**Department of Electrical Engineering**  
THE study and work in this department are all of the modern application of electricity. The course is so condensed and divested of superfluities as to bring it within the time limit and means of the average young man who has to make his own way in the world.

Each student has to manufacture in the workshop a large portion of the apparatus.

The department is thoroughly equipped with Dynamos, Motors, Measuring Instruments, wiring Appliances, Wheatstone Bridges, Telegraphic Instruments and Appliances, Electro-Medical Apparatus, Galvanic and Storage Batteries of all kinds, Fluoroscopes, X Ray closet and a large Laboratory.

**Department of Civil and Mining Engineering**  
THIS department has been established to meet a demand for thorough instruction in mining and surveying that will be shorter than the university course of four years. The plan adopted therefore, is to *specialize*, so that those who wish can take up one subject only or as many as may be deemed advisable.

Six months devoted exclusively to mining engineering will give the average student a full *practical* knowledge of the subject.

Any course or group of studies may be selected.

The CIVIL ENGINEERING COURSE includes:—Geometry, Trigonometry, Draughting, Strength of Materials, Surveying.

The MINING ENGINEERING COURSE includes:—Assaying, Blow-pipe Analysis, Mill Construction, Milling, Mining, Geology, Mineralogy, Economic Geology, Surveying.

The METALLURGICAL COURSE includes:—Chemistry, Assaying, Metallurgy, Calorifics.

PROF. O. H. PACKER, manager of this department, was formerly a Government chemist and has had ten years' experience in mining and the construction and operation of mills.
